# ladies ballroom

**what's special?**

experience unmatched comfort (per graphic to the left) that envelops your feet in softness and superior cushioning the moment you slip into our shoes. they're not only flexible and lightweight but also exude an elegant charm, which is probably why they're the preferred choice for most ladies in major professional and amateur ballroom competition finals!

**3. FOAM LINING**  
A SOFT FOAM LINING FOR A GLOVE LIKE FITTING AND AMAZING COMFORT!

## 2. GEL PADDING

- PADDING FROM THE BACK OF THE HEEL TO THE TIP OF THE TOES CREATES THE MOST COMFORTABLE AND SUPPORTIVE EXPERIENCE
- ABSORBS SHOCK TO PROTECT BONES AND MUSCLES! IMPORTANT IN PROLONGING YOUR DANCING LIFE!

## 1. ARCH SUPPORT

- PREVENTS THE LONGITUDINAL ARCH FROM DROPPING.
- HELPS TO EVENLY DISTRIBUTE PRESSURE
- NO ARCH SUPPORT CAN CAUSE THE ARCHES TO COLLAPSE. PAINFUL! THIS IS WHEN YOUR FEET OVER-PRONATE, WHICH STRAINS TISSUES IN THE BOTTOM OF THE FOOT

**what's best for you?**

the roundtoe shape (also used on vista) offers a bit more space in the toe than the superstar shape, so it could be considered even more comfortable. the more pointed toe of the superstar can suit dancers with narrower feet. then, do you wear a strap? many of the leading dancers today wear shoes without a strap but we always advise dancing in what *you* are comfortable in. if you want the look of a no-strap shoe, but need the security, take a look at our clear foot straps on page 28. as for heels, most dance on our IDS (flared) heel for the best in support, though the new vogue heel (more info on page 29) is also very popular

## 1. ARCH SUPPORT

- PREVENTS THE LONGITUDINAL ARCH FROM DROPPING
- HELPS TO EVENLY DISTRIBUTE PRESSURE
- NO ARCH SUPPORT CAN CAUSE THE ARCHES TO COLLAPSE
- WITH MOST SHOES BEING SPLIT-SOLES NOWADAYS FOR THE BEST IN FLEXIBILITY, IT IS MORE IMPORTANT THAN EVER TO GIVE THE ARCH MORE SUPPORT!

## 2. GEL PADDING

GEL PADDING FROM THE BACK OF THE HEEL TO THE TIP OF THE TOE FOR COMFORT AND PROTECTION

## 3. FOAM LINING

A SOFT FOAM LINING FOR A GLOVE LIKE FITTING AND AMAZING COMFORT!

## 4. PASO PROTECTION!

A LITTLE BIT OF SPONGE UNDER THE HEEL TO SOFTEN EACH STEP - ABSORBS THE SHOCK OF YOUR POWERFUL PASO DOBLE!

## split-sole vs. full-sole

split-soles, as pictured to the right are very flexible, whereas the full-sole shoes include a metal shank, which offers a lot more support. choose the insole type that is best for you!

## shoe care

### PATENT

for patent shoes, use the patent protector provided in the shoe box before, during and after dancing. this helps prevent sticking, scuffing & helps the patent last longer (page 28)

### HEEL TIPS

slimmer heels should be checked regularly as tips with a smaller surface area can wear faster. we offer replacement heel tips & heel protectors (page 28)

### SUEDE SOLES

use the shoe brush (page 28) but be gentle to avoid damaging the surface and colour of the sole. replacement soles (page 27) can be applied using a strong hold glue

if you have an XG SOLE, be careful not to use a brush over the rubber (and be especially careful not to brush the stitches that keep the rubber embedded within the suede. we recommend keeping all shoes away from wet surfaces as dance shoes are designed for indoor use only

**DANSport**

we also have our dansport collection which is a range of shoes for beginners and social dancers, browse here:  
[www.internationaldanceshoes.com/dansport](http://www.internationaldanceshoes.com/dansport)

**buckle options**

as standard, all our shoes are made using traditional buckles with rhinestones.

we offer hook buckles (as seen on the left), though anything with a hook buckle will be classed as 'bespoke' (non-returnable/non-refundable)

**find your size**

if you need us to help you find out your size, we need two measurements

**length (1)** - this is the measurement in centimetres from the back of the heel to the tip of the big toe

**width (2)** - you need to measure around the ball of the foot at the widest point (please don't just measure the width of your sole, you will need to take a tape measure around the circumference of the foot)

scan the QR code above for a video demonstrating how to measure!

**important note**

we offer a range of fitting options as seen above. anything that is subject to a surcharge or to be advised will be considered 'bespoke' and non-returnable/non-refundable. contact us if you need any advice

## bespoke options

### pink & blue soles

jazz things up by adding soles in our iconic pink and blue!

### glitter soles

one of our most popular extras, add a gold or silver glitter sole to your shoes for that extra sparkle!

### customise your look!

being **made in england** helps us to offer customised options like those seen below where you can get creative with colours, or even have shoes made out of your own fabric!\*

### vegan soles

we also offer vegan alternatives to the traditional suede leather sole. these are available currently in black and tan. ordering shoes in vegan will mean that your shoes will be fully vegan, and if ordering a style with a black calf upper, the upper will be made using a vegan material instead of leather.

\*coloured/glitter soles, ids:iD and all other bespoke shoes will incur surcharge and are non-returnable/non-refundable. vegan shoes have no extra charge, but are still non-returnable/non-refundable.

### ids:iD

tag your shoes by adding up to three letters/numbers in gold or silver!

\*fabric can't be too thin, all subject to approval (trouser fabric tends to be OK)
